Plan for the next iteration

For the iteration 2 we need to do:

- Revised Versions of the previously submitted 2 Full Use Case Descriptions

- Revised Domain Model

- 2 New Fully Dressed Use Case Descriptions (can be from the Brief cases previously submitted)

- 2 Sequence Diagrams: to match the 2 new use case descriptions, trace 'happy paths' only

- Overall Class Diagram

- Minor Release of your Application: must include the functionality for the 2 new use cases submitted, but more too. Check with me if unsure about suitability.
